

OFF-SEASON MISSION: INFORMATION

FIRST® LEGO® League Explore

1 Competition conditions

1.1 FIRST LEGO League Coach

I understand that each team has to get registered for the Off-Season Mission by at least one adult coach (min. 18 years). The coach is responsible for the transfer of the pictures of the team as well as for the circulation of the data protection policy to all persons involved. As a coach, I am responsible for obtaining consent for each participating team member from the parent or legal guardian. The prepared form of consent and release can be used for this. For each season, there has to be current consent form signed by the guardian.

1.2 Communication via e-mail

I understand that the communication will be via the e-mail address of the coach. Therefore, I have to indicate a valid e-mail address for communication purposes with HANDS on TECHNOLOGY e.V.

1.3 Team number and team members

I agree to use the assigned team number of the current FIRST LEGO League Explore season in the registration form for the Off-Season Mission. I understand that each team member participating in the Off-Season Mission must belong to the FIRST LEGO League Explore team that signed up to the current season.

1.4 Participation

The coach has to complete the registration form for the Off-Season Mission and submit the picture files until the closing date. Participating in the Off-Season Mission is free of charge.

1.5 Evaluation

All applications will be judged by an independent jury and judged by the criteria of creativity, topic reference and effort. This decision is final and not contestable. The legal process is excluded.

1.6 Handling of the photo material

I understand that the picture files will be transmitted via a server to the organizer HANDS on TECHNOLOGY e.V. and will be viewed there. The pictures will be uploaded to the YouTube channel and the websites of HANDS on TECHNOLOGY e.V. and will stay visible for an indefinite time.

2 Privacy Policy

When dealing with team data and picture files, HANDS on TECHNOLOGY e.V. strives to be as diligent as possible. We ensure, that we treat the data and picture files confidentially and that all legally required technical and organizational activities to ensure data protection are guaranteed.

The collection, processing and usage of all personal data takes place in principle according to the rules of the General Data Protection Regulation.

If a team member cannot show his or her parents' consent, participation of the team member in the Off-Season Mission is not recommended. Participants or their parents agree, that the pictures will be stored by HANDS on TECHNOLOGY e.V. for purposes of conducting the Off-Season Mission and will be reviewed by the judges. The consent can be revoked at any time by e-mail to info@hands-on-technology.org. However, a revocation of the data protection consent to participate in the competition leads to the exclusion of the team from the competition.
