info@hands-on-technology.org

For further information visit: www.first-lego-league.org/en/offseasonchallenge

CLOSING DATE: MAY 29TH, 2020

DETAILS ABOUT THE CHALLENGE

EVALUATION

All submissions will be reviewed by an independent jury and evaluated according to the criteria of innovation, creativity and communication skills. Winning teams will be announced 3 weeks after the closing date. The legal recourse is excluded.

THE CHALLENGE

Our Challenge consists of the three well-known parts Research, Teamwork and Robot Game. Still, there are special tasks awaiting you:

➔ ROBOT-GAME – NEW MISSION

Develop a new mission with the existing models on the basis of the current field mat. Be creative and surprise us with your innovative ideas! Solve the mission with your robot and send us a video of it. The video should be no more than 40 seconds long.

➔ RESEARCH – ELEVATOR PITCH

Imagine, you step into an elevator and meet an important decision maker in there. You only have the time of the elevator trip to present your idea. Send us a video, in which you summarize the most important core points and the innovative solution of your project in a maximum of 30 seconds!

➔ TEAMWORK – INSPIRE OTHERS

FIRST® *LEGO*® League thrives on teams helping and inspiring each other. Tell another school or class about *FIRST*® *LEGO*® League and get them excited to join in within the next season. Send us a video, in which you show them for a maximum of 40 seconds, why it is so much fun to be part of *FIRST*® *LEGO*® League!

You are welcome to share your videos under the hashtag **#offseasonFLL** on all social media channels.

The Off-Season Challenge is organized by:
